

LC App V2 Preview Pack

Mobile product renders for easy viewing on iPhone, partner chats, and investor review.

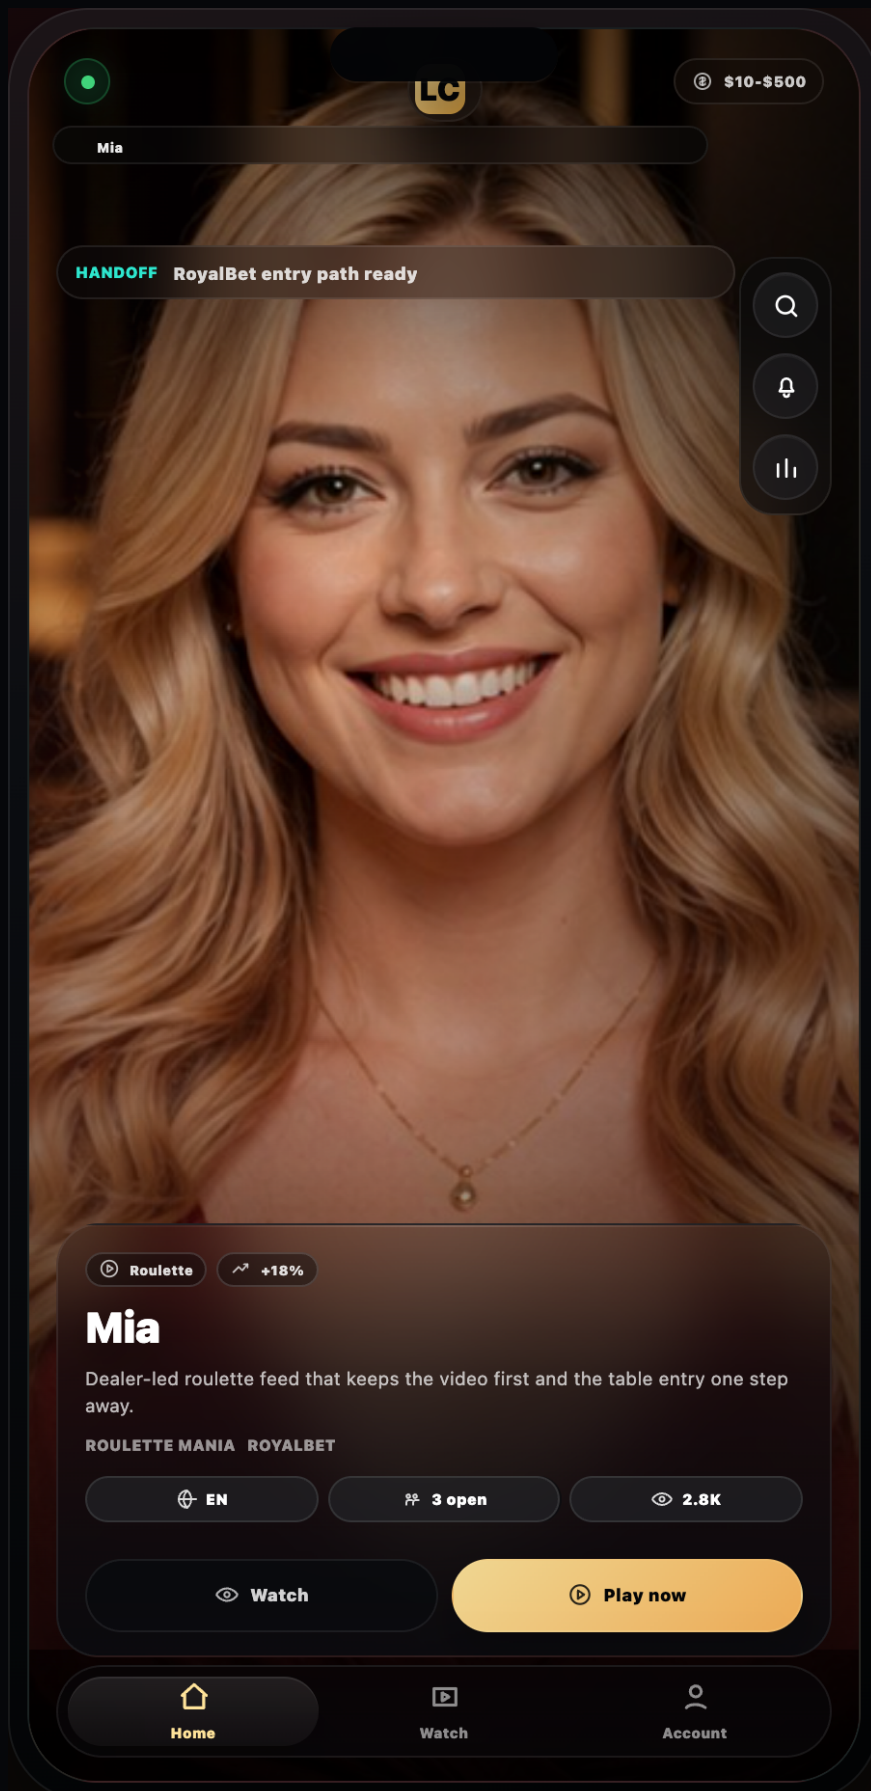

Generated 2026-05-06 02:20

Feed Discovery

01

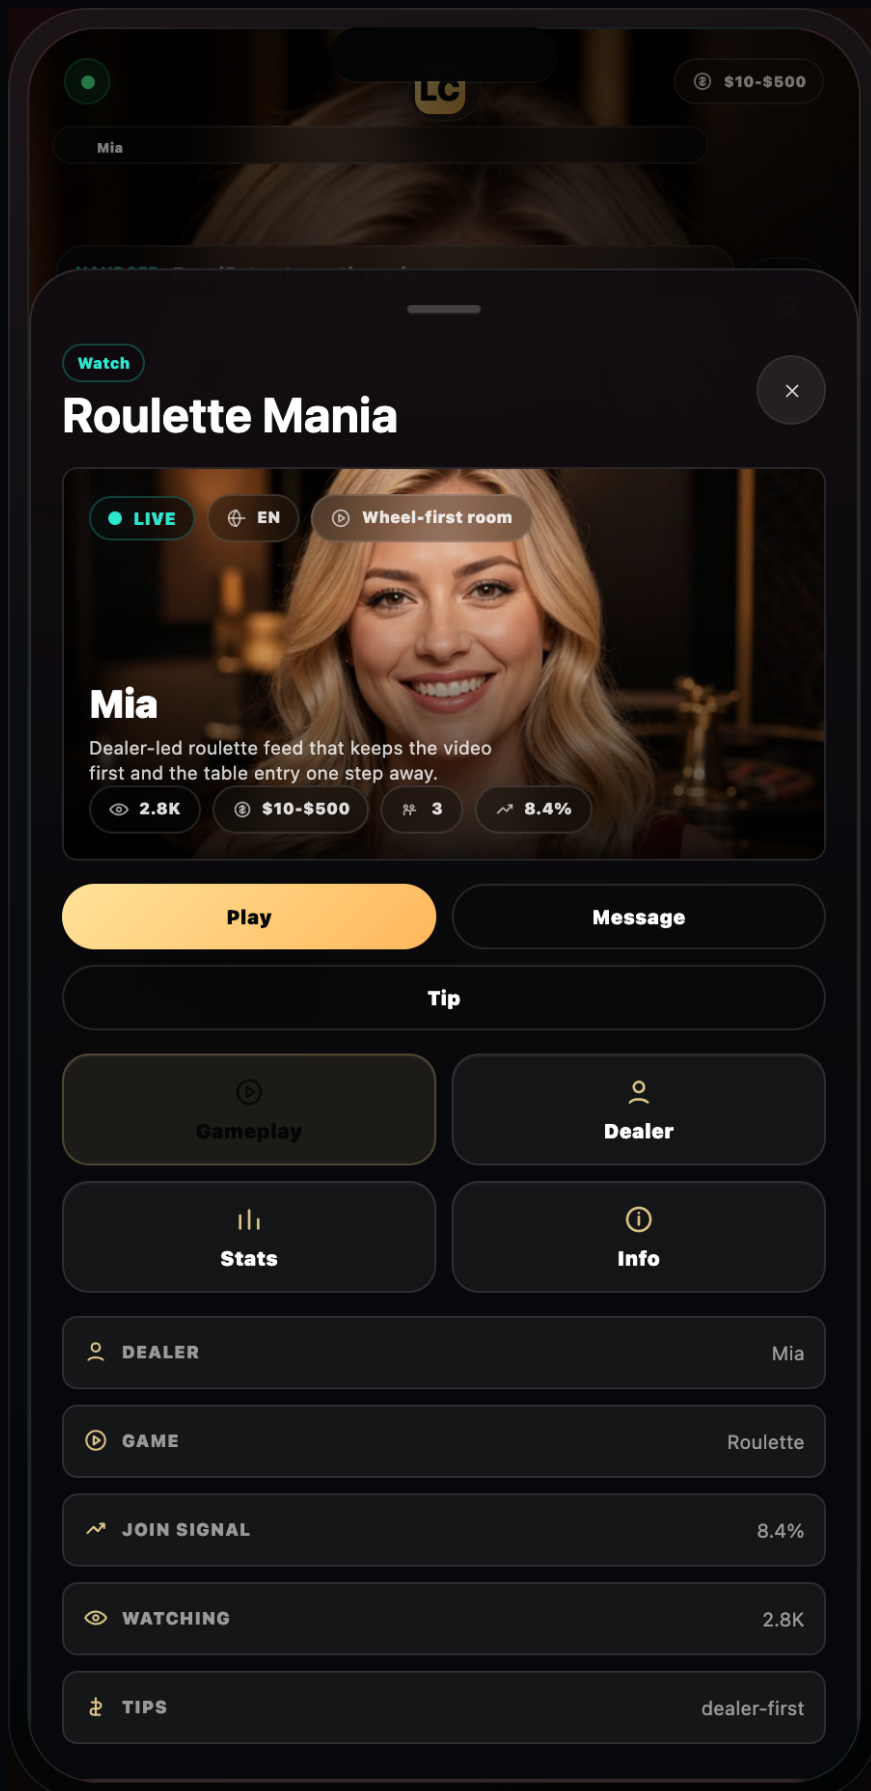

Instagram-like entry into live roulette with dealer identity, table state, and watch-first CTA.

Watch Mode

02

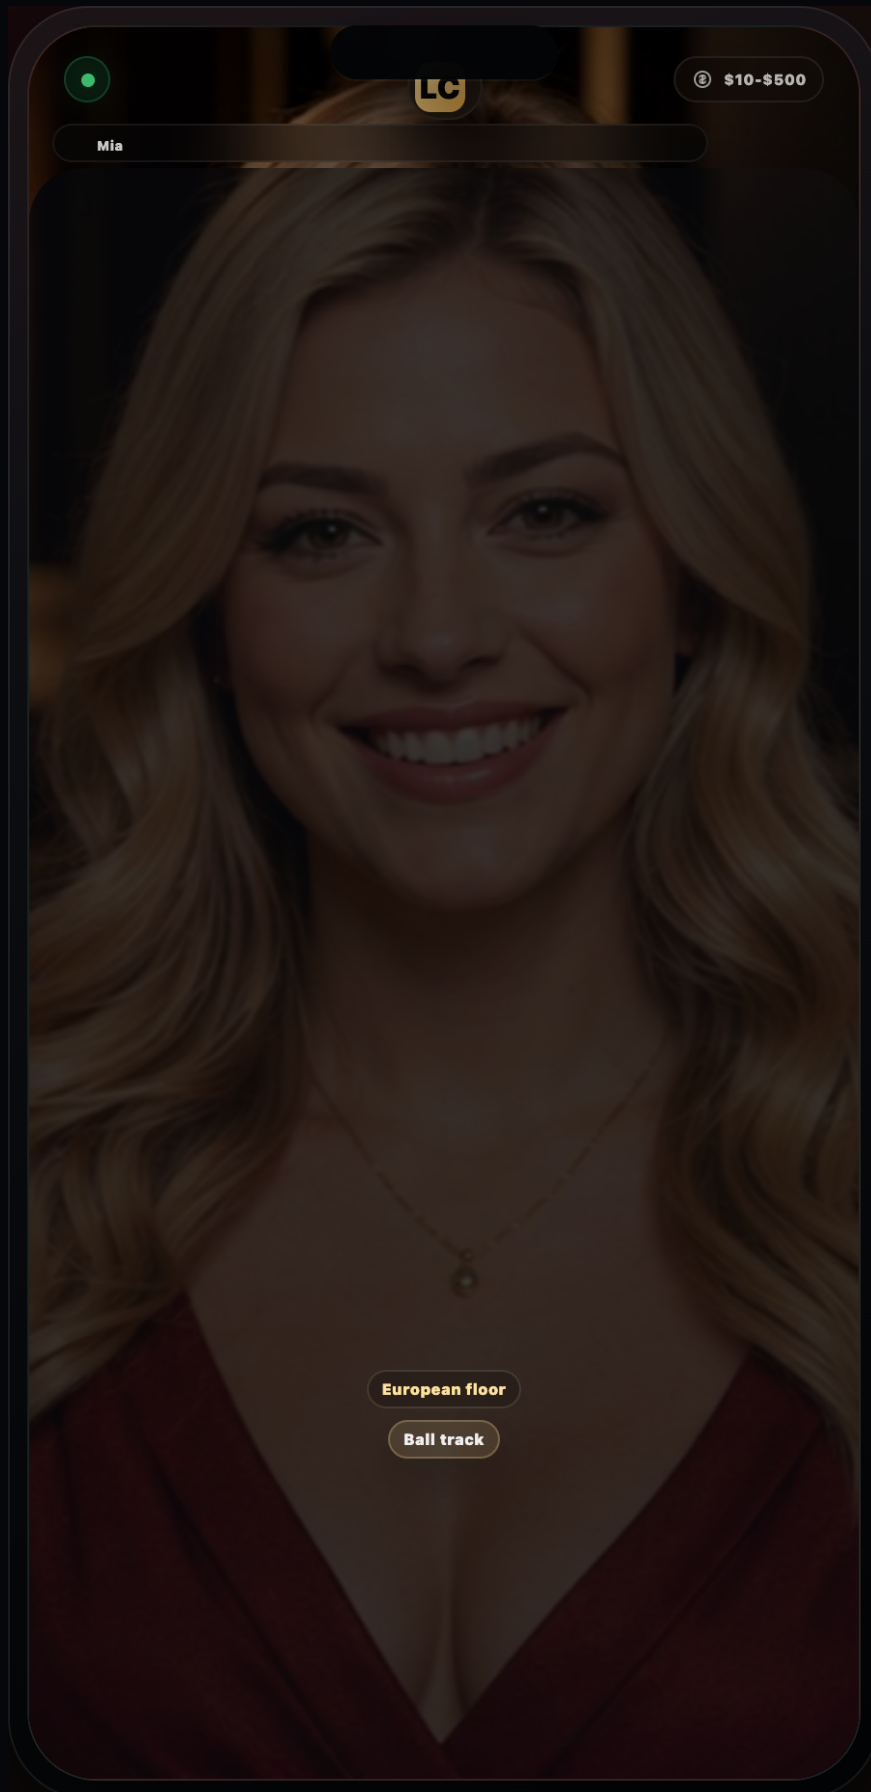

Expanded table view that preserves dealer context while showing stakes, table state, and instant operator entry.

Roulette Gameplay

03

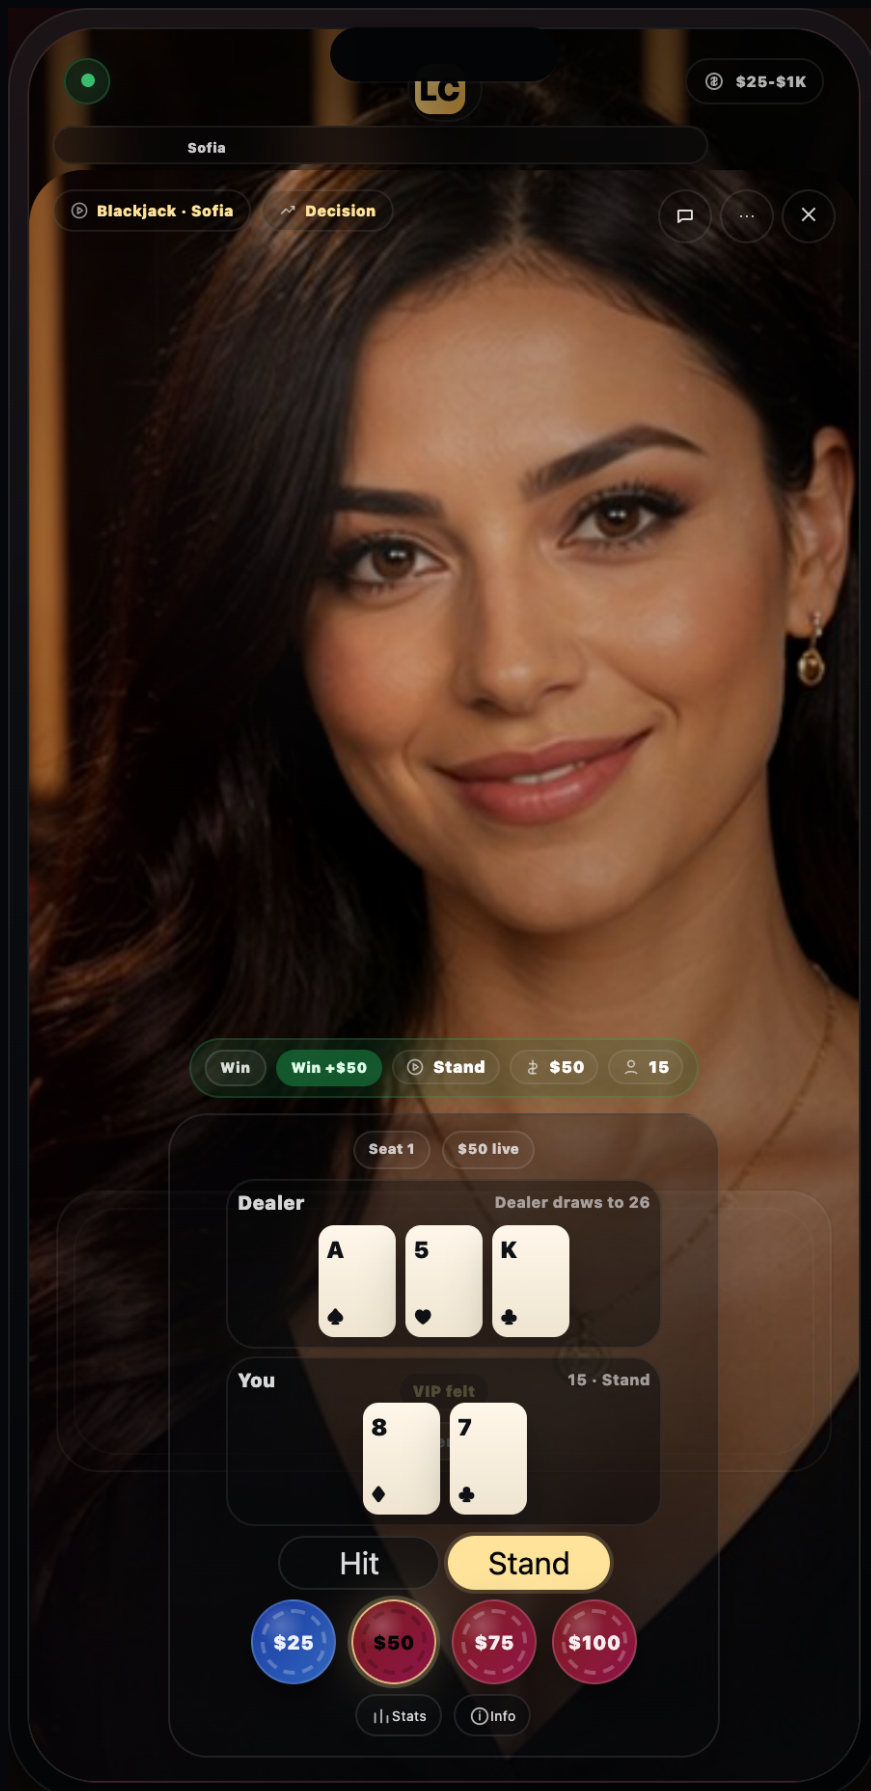

In-table roulette flow with chips, bet map, round history, and a visible win-state settlement.

Blackjack Gameplay

04

Decision-heavy blackjack seat flow with cards, action controls, hand summary, and resolved payout state.

Baccarat Gameplay

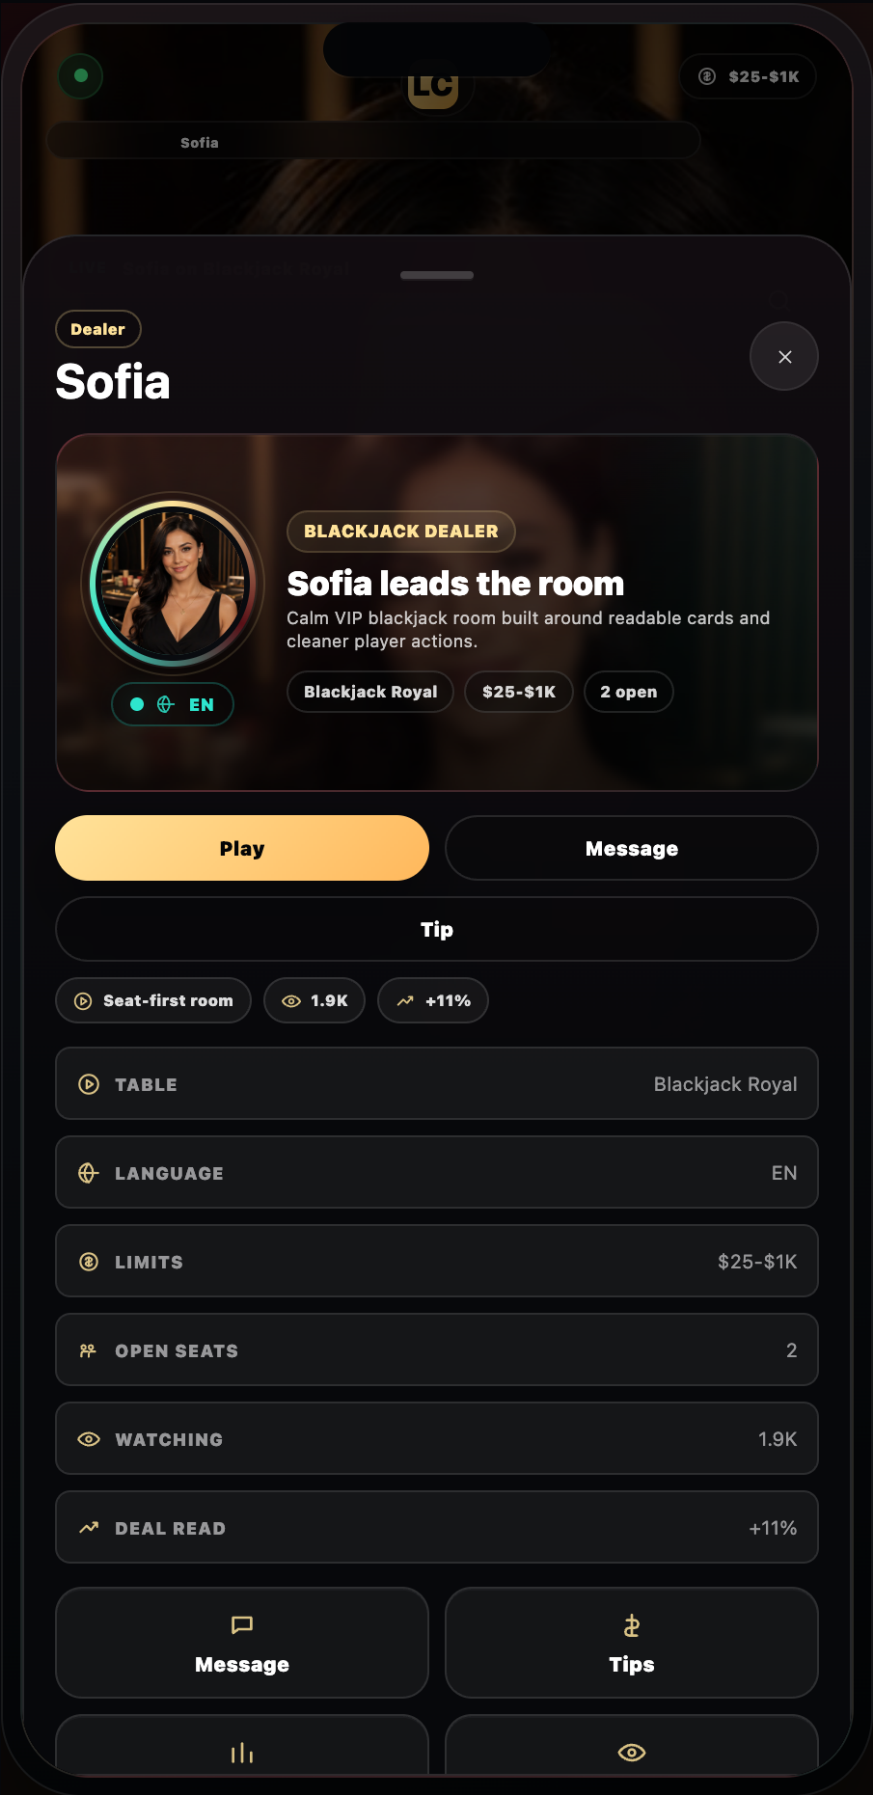

05

Trend-led baccarat screen with side selection, roadmap behavior, and instant result visibility.

Dealer Profile

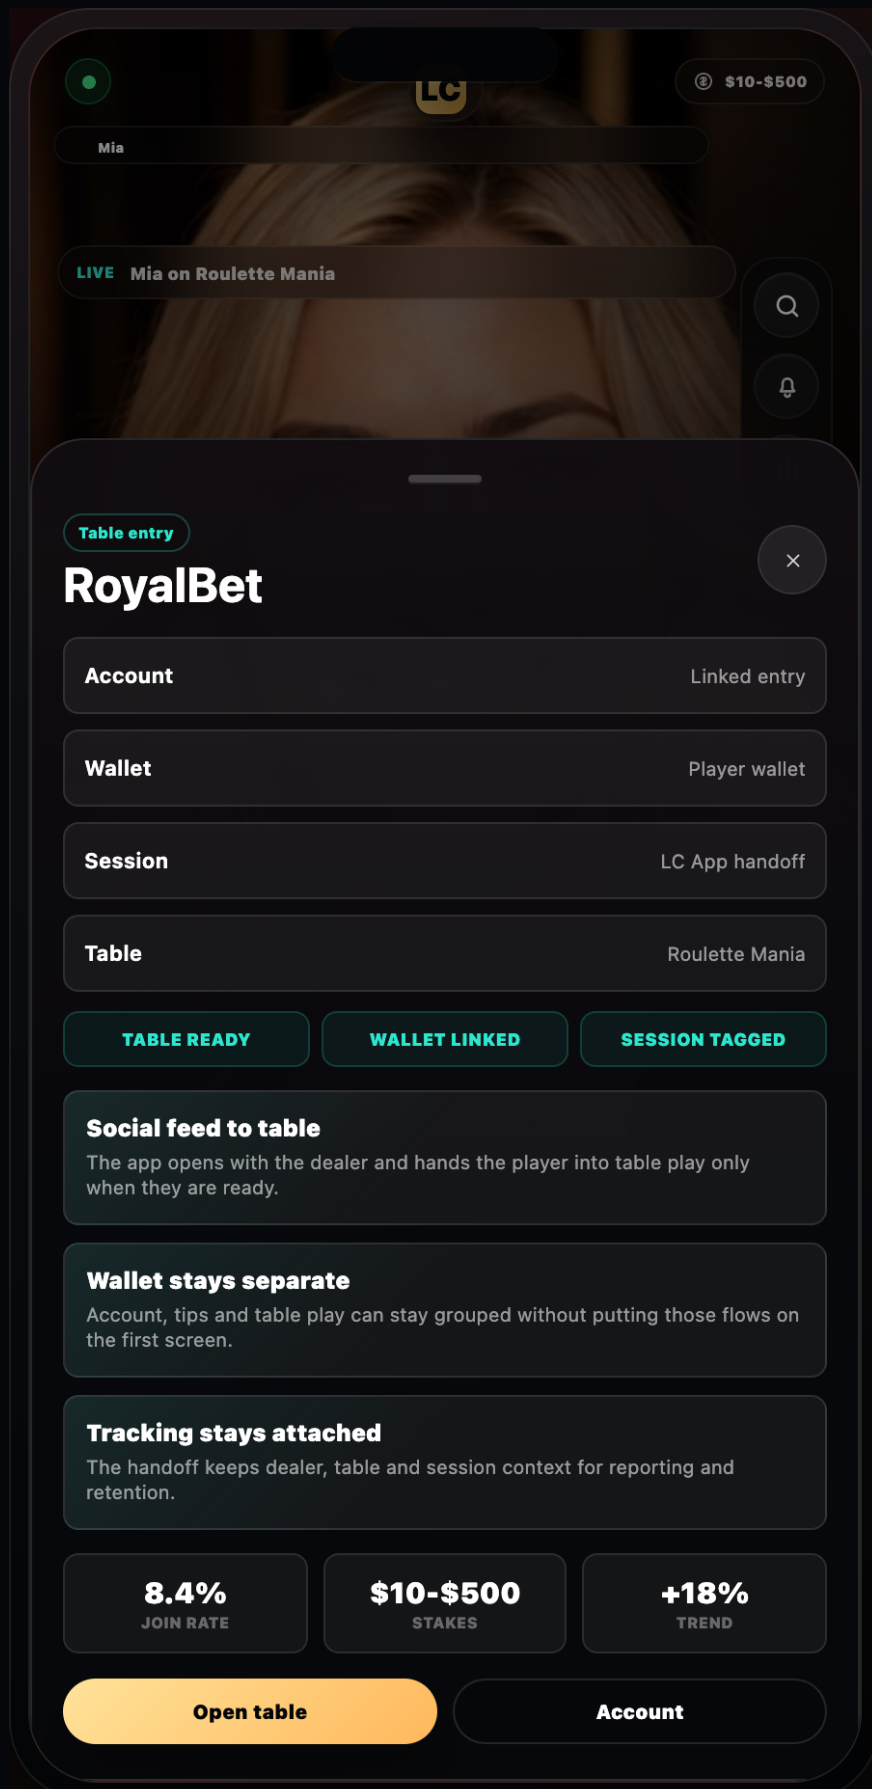

Follow-first dealer surface designed to deepen return loops and make tables feel personal, not anonymous.

Operator Handoff

07

LC App hands off to the licensed operator for login, KYC, wallet, and final game session ownership.

Pilot Insights

08

B2B proof layer showing how feed discovery converts into operator join-rate and revenue logic.
